In this Installation of our weekly Eco-Friendly Transportation Series, we will be looking at something for the kids! The [X-Treme X-10](#) mini electric scooter is a great electric scooter for the youngins. This pint sized electric scooter is perfect for a child making the transition from push to electric.

It's a kid-friendly version of those grown up electric scooters they'll be screaming for in years to come. [The X-10](#) comes with features not offered on similar models like a variable speed twist throttle and real hand lever operated brakes. The X-Treme X-10 Mini folds for easy storage and because it's electric the X-10 is environmentally friendly, noise-free, and operates on pennies a day. The X-10 is a terrific introduction to the world of electric scooters. If you're looking for something with a little more power and extra features, try the X-Treme X-140.
